# PropTech Ventures

We partner with market leaders, with diverse exposure, lowering the overall investment risk.

## Proptech

PropTech is the use of technology and digital innovation to substantially improve all areas of the property lifecycle. PropTech is reshaping how real estate is designed, built and operated.

PropTech is transforming real estate by driving efficiency, improving accessibility, and promoting sustainability through cutting-edge software, AI solutions, and digital platforms.

## Investment Strategy

Diversification through a fund-of-funds model with partnerships in top-tier PropTech companies offering off-market and early investment access to high-potential scale-ups.

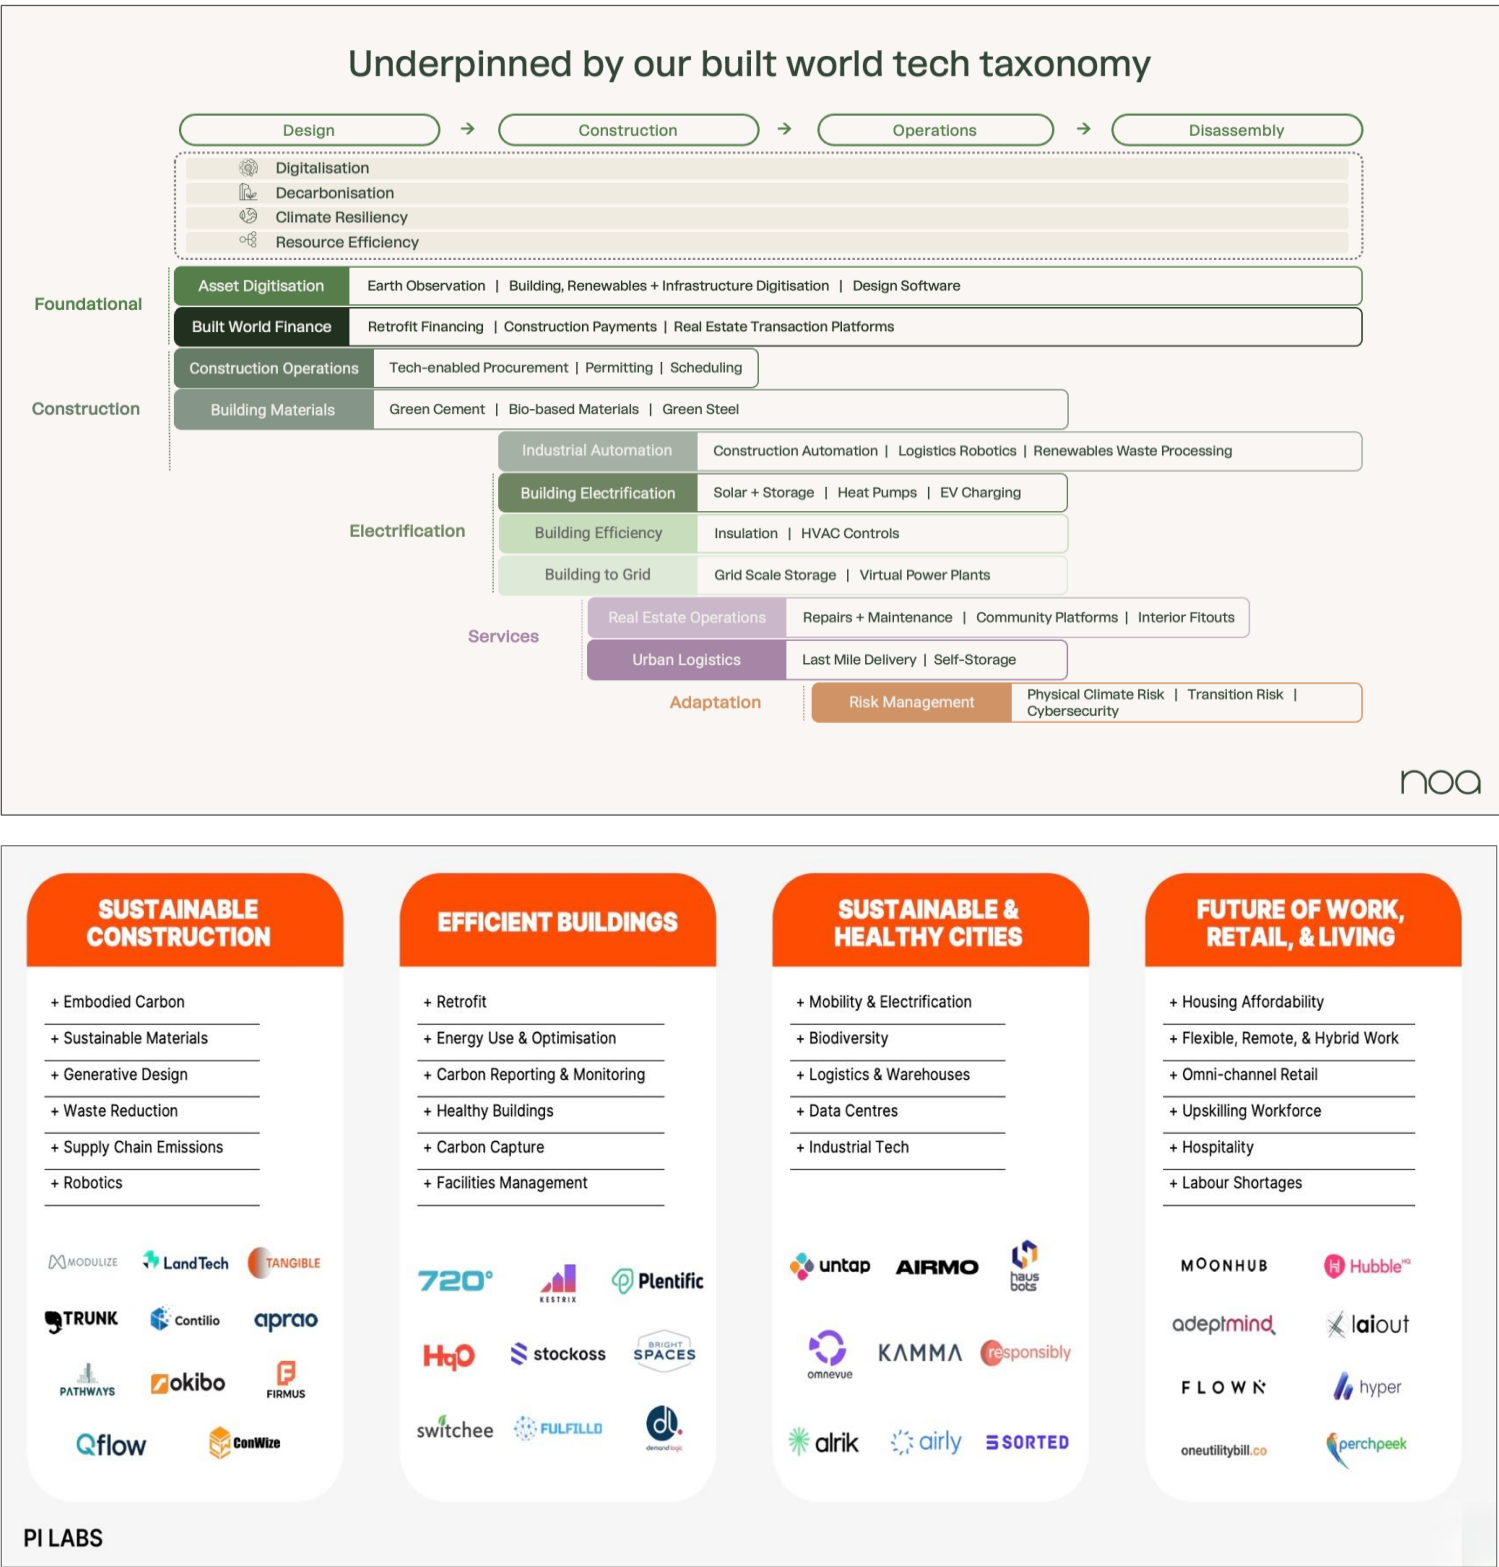

Later-stage and further co-investments in strong performers, applying strict selection criteria to target strong, risk-adjusted returns.

## Partnerships

Using our extensive network, we identify and select the best-in-class teams and companies based on performance, confidence, track record and expertise.

Through these partnerships, we are able to localise proven business models in Portugal and abroad.

# Serviced Operations

Focus on investing into serviced operations to enhance value and drive demand for services with pre-agreed exit terms.

## Hospitality, Wellness & Serviced Workspaces

The hospitality industry is evolving beyond traditional hotels to include serviced residences, senior living, wellness, and co-working spaces. Tourism accounts for 15% of GDP making Portugal an attractive option.

These sectors cater to a mobile and experience-driven consumer base, emphasizing flexibility, convenience, and community. The convergence of these interconnected sectors presents new investment opportunities.

## Investment Strategy

The Fund will invest in operating companies across these high-growth sectors with a combination of debt and equity agreements, securing preferred income for yields and upside capital growth.

Capital will be allocated to fit-outs, furniture, and initial operating costs, and not invested into any form of real estate .

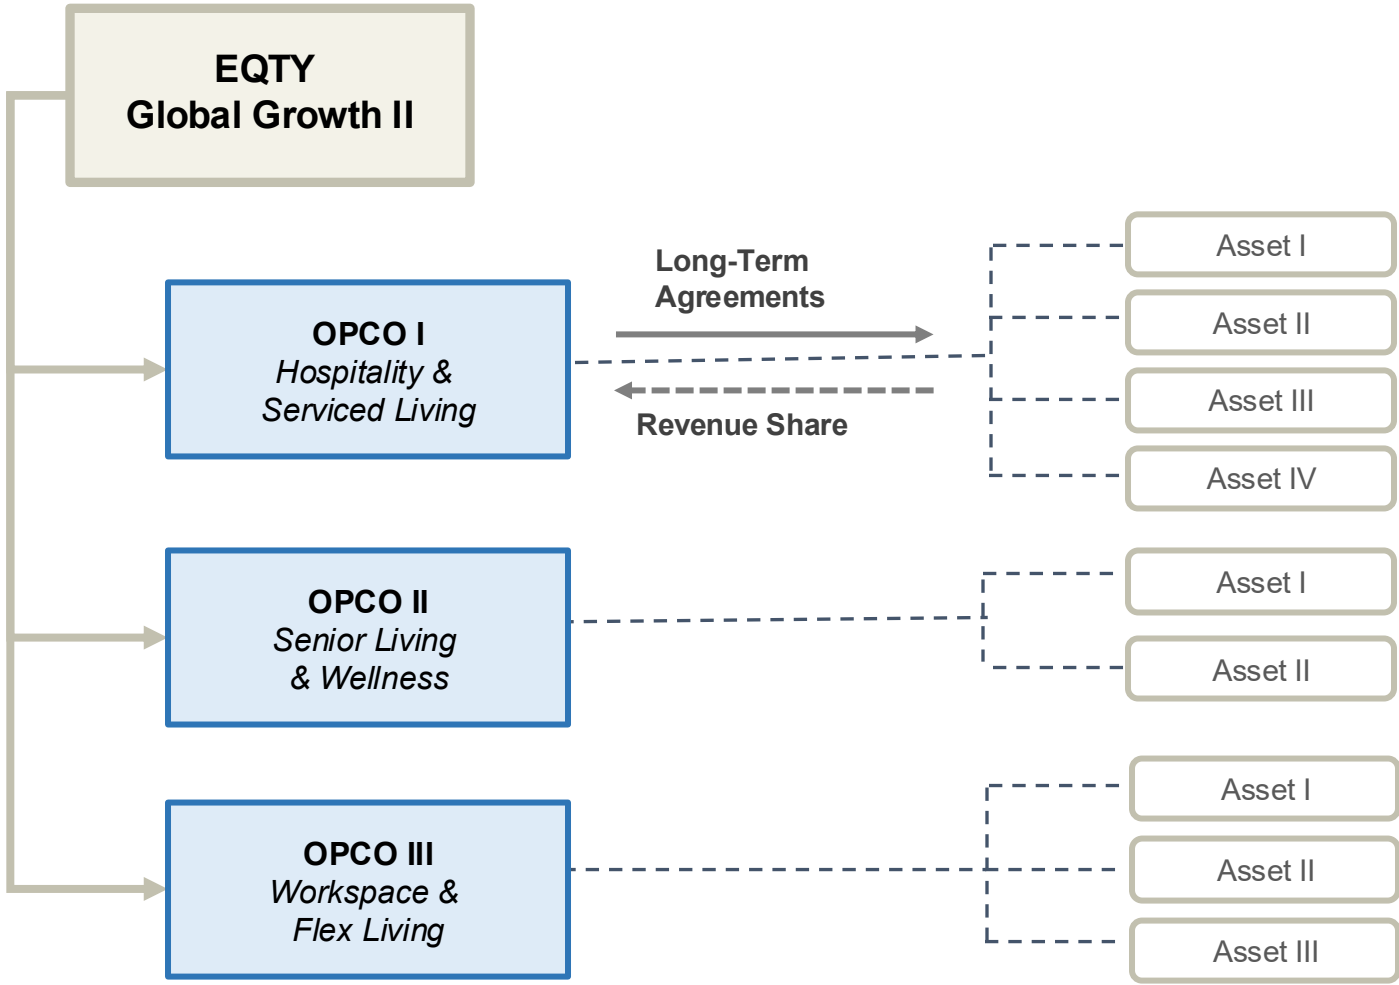

## Operational Model

Operators enter long-term service agreements with property owners, generating revenue share that supports non-real estate capital.

Investments are typically structured over 5-year terms, balancing yield-generating returns with capital growth through equity participation and pre-defined exit conditions.

## Portfolio Structure

Note: this is a potential structure that depends on capital, market conditions, investment allocations and for illustration purposes only.

# Portfolio Overview

A Globally Diversified Portfolio is allocated to different sectors within the Portuguese economy and across international markets.
